EDUCATION

B.Tech (EE)	NSUT Dwarka	Expected 2028	CGPA: 8.2 (Till Now)
Class XII (CBSE)	B.R.G.S.B.V	2024	89.6%
Class X (CBSE)	Bhai Parmanand Vidya Mandir	2022	95.4%

PROJECTS

GrowthHub – Productivity & Competitive Coding Tracker (Ongoing) – Spring Boot, 2026

- Architected and developed a backend-driven platform to track coding practice, productivity metrics, and competitive programming progress for placement-focused students.
- Developed **15+ REST APIs** for authentication, productivity tracking, coding analytics, and leaderboard management.
- Implemented modular service-layer architecture enabling maintainable backend logic and future scalability.

Real-Time Chat Application – Spring Boot, PostgreSQL, 2025

- Engineered a secure backend messaging system supporting real-time conversations, group chats, and media sharing.
- Implemented authentication using Spring Security, JWT tokens, and BCrypt password hashing with enforced single-session login.
- Designed REST APIs and relational data models using Spring Data JPA and PostgreSQL for messaging, contacts, and group management.

Distributed API Rate Limiter Service – Spring Boot, Redis, 2025

- Built Redis-backed distributed rate limiter capable of handling **thousands of counter updates per minute**.
- Implemented concurrency-safe algorithms and configurable rate policies to protect APIs from abuse and traffic spikes.
- Returned standardized HTTP 429 responses and designed the service for seamless integration with microservice architectures.

TECHNICAL SKILLS

Languages: C++, Java, Python (NumPy, Matplotlib,), JavaScript

Frameworks & Backend: Spring Boot, REST APIs, OAuth2, JWT, Node.js

Databases: MySQL, PostgreSQL

Developer Tools: Git, GitHub Actions, VS Code, Eclipse IDE, Linux (Ubuntu, Kali)

Networking & Security Tools: Wireshark, Nmap

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems (Basics),

ACHIEVEMENTS

Solved **500+ Data Structures and Algorithms problems** across multiple competitive programming platforms.

Achieved **100/100 in Engineering Mathematics across two consecutive university semesters**, demonstrating strong analytical and quantitative reasoning.

Led team to victory in a **state-level football tournament as captain**, demonstrating leadership, teamwork, and decision-making under pressure.
